MERN FULL STACK WEB DEVELOPER / WEB DEVELOPER

Summary

I'm a passionate and dedicated full stack web developer with a solid foundation in both front-end and back-end technologies, including HTML, CSS, JavaScript, React, Bootstrap, Node.js, Express, and MongoDB. I have hands-on experience building responsive and dynamic web applications, with a focus on writing clean, efficient, and maintainable code. Eager to continuously learn and grow, I'm excited to contribute to innovative projects and begin my professional journey as a valuable member of a collaborative development team.

Work Experience

CODE NEPTUNE , Full Stack Web Developer Intern

Chennai, Tamil Nadu, India | Aug 2025 – PRESENT

- Built SEO-friendly, real-time web apps using React, Next.js, Node.js, Express.js, HTML, CSS, and Tailwind CSS.
- Optimized MongoDB/MySQL databases and collaborated via Git/GitHub.

SHANTHI IT SOLUTIONS , Full Stack Web Developer Intern

Chennai, Tamil Nadu, India | Oct 2024 – Nov 2024

- Built responsive web apps using JavaScript, React, Node.js, Express.js, HTML, CSS, and Bootstrap.
- Optimized MongoDB/MySQL databases and collaborated via Git/GitHub for efficient workflows.

Projects

Todo List , React JS | Node JS | Express JS | MongoDB | Zustand

Github : github.com/sanjay-d05/notes-app-client

- Built a full-stack to-do app with task creation, update, and deletion using the MERN stack.
- Designed a responsive UI in React.js with Zustand for efficient global state management.
- Developed RESTful APIs using Node.js and Express.js for seamless backend operations.
- Used MongoDB for data persistence and deployed the app via Vercel and Render.

Blog App , React JS | Node JS | Express JS | MongoDB | Redux

Github : github.com/sanjay-d05/blog-app

- Developed a full-featured blog platform using MongoDB, Express.js, React, and Node.js (MERN) with user authentication and content management.
- Integrated Cloudinary for image uploads and secured routes using JWT and HTTP-only cookies.
- Built responsive UI with React and Tailwind CSS, focusing on usability and mobile-friendly layouts.
- Used Git and GitHub for version control, following best practices for collaboration and clean code workflow.

Real-Time Weather Application , React JS | Bootstrap CSS | APIs

Github : github.com/sanjay-d05/live-weather-app

- Developed a responsive app for real-time weather information based on user searches.
- Used a weather API for data on temperature, humidity, wind speed, and conditions.
- Implemented a dynamic search feature with feedback for invalid entries.
- Ensured a user-friendly interface with mobile compatibility and effective error management.

Trendy Tales (E-Commerce Application) , React JS | Tailwind CSS

Github : github.com/sanjay-d05/trendy-tales

- Created a fully operational e-commerce application featuring a responsive and intuitive frontend design.
- Integrated functionalities such as product listing, search options, filtering, and a shopping cart.
- Crafted a smooth user interface with interactive components to boost user engagement.
- Emulated data management and dynamic updates through local state management, all without backend integration.

Skills

- Programming Languages:** JavaScript, Python, Java, C++
- Frontend Development:** HTML, CSS, React.js, Next.js, Redux, Zustand, Bootstrap, Tailwind CSS
- Backend Development:** Node.js, Express.js
- Databases:** MongoDB, MySQL
- API & Testing Tools:** Postman
- UI/UX & Design Tools:** Figma, Canva
- Version Control & Deployment:** Git, GitHub, Vercel, Netlify, Render
